

RAKYTNÍK MESSENGER

THE GAZETTE OF THE MUNICIPALITY OF RAKYTNÍK - RAKOTYÁS

YELLOW PLASTIC BOTTLE BAG COLLECTION: PLEASE, DEAR RESIDENTS, IF POSSIBLE, PLACE THE PLASTIC BOTTLES IN THE YELLOW BAGS SQUASHED OR TRAMPLED ON SO THAT THEIR CAPACITY CAN BE USED AS MUCH AS POSSIBLE. THE BAGS THAT HAVE BEEN FILLED IN THE MEANTIME WILL BE COLLECTED ON WEDNESDAY, APRIL 22, 2020. THAT MORNING, PLEASE PLACE YOUR FILLED YELLOW BAGS AT YOUR GATES.

ANNOUNCEMENT OF OUR MUNICIPAL OFFICE

Despite the current extraordinary situation, our municipal office is operating in its usual way. We are at the disposal of our clients on weekdays, in the usual time, between seven and eleven in the morning. Tax decisions for the current year will be delivered by the end of April. For health safety reasons, activation work will continue to be suspended for the most part, but actually, may continue in a reduced and limited manner from 14 April, subject to compliance with the strictest health regulations. We ask the residents of our village and our workers involved in the activation activity to be patient until further information.

CONSTRUCTION OF THE SEWAGE TREATMENT PLANT

In the meantime, the government office has changed the conditions for supporting our application. Thus, if the sewage treatment plant had been built by the social enterprise founded by our municipality, we would have needed a higher own resource, which our village budget could not afford. We have therefore requested a new call for tenders, which was soon approved. Namely, if an external company becomes the contractor, we can cover almost the entire amount of the construction cost with a grant. Thus, the construction works will eventually be carried out by the banet s.r.o., operating in our region, which have won the new public procurement for this purpose and already has experience in this field. We currently have a valid building permit issued by the environmental department of the competent district office in Rimavská Sobota/Rimaszombat.

THERMAL INSULATION OF OUR MUNICIPAL OFFICE

Our other current tender is to increase the energy efficiency of the municipal office building, during which the building will be completely insulated, the heating system will be modernized and the doors and windows will be replaced. The public procurement for this purpose was also won by the resident banet s.r.o.

RENOVATION OF OUR MUSEUM

The renovation of the village museum building continues. Currently, workers are working in the back of the building. They operate in several places in the region, and important buildings are being renovated intermittently in several villages.

CORONAVIRUS

We thank the residents of our village for bearing the current extraordinary situation relatively well, for behaving responsibly during the holidays, and for complying with health regulations. When visiting a public area, on the street, in a shop, post office or municipal office, it is still mandatory to cover the upper respiratory tract and wear gloves. Pay increased attention to our personal hygiene and proper social distancing.

Our retired residents can ask for help by calling the municipal office on 047 56 97 116.
