

RAKYTNÍK MESSENGER

THE GAZETTE OF THE MUNICIPALITY OF RAKYTNÍK - RAKOTTYÁS

EDITORIAL

Dear citizens,

Allow me to respond to the situation in our village.

I am sad to tell you that some people are abusing our intention to give our residents greater insight into the work and plans of the local government. We have made the representative council meetings public and we also inform our residents about the planned and ongoing developments in our village through the Newsletter. However, some use these opportunities to carry out an attack against me for their personal, perceived or real grievances, in search of a public and larger community.

By the will of the overwhelming majority of our constituents, I am now in my third term as mayor of the village, but I have not experienced such a fierce situation in previous cycles. But the experiences of the past year show that attacks against my person have become so harsh that some people are publicly threatening me. Representative council meetings and other events organized by our local government are intended to promote positive progress for our village and to build a community based on understanding and acceptance.

Sincerely:

Ján Rencsok, mayor

GEMER/GÖMÖR RENEWAL

Our village is also participating in the Gemer/Gömör Renewal project, which is launched in the regions. The tender presentation took place on Friday, October 18, 2019 at 15:00 in the castle in Král – Sajószentkirály. In the spring of 2018, the idea of creating jobs through the process of revitalizing the cultural and other values in our region was born within the action plan for the development of lagging regions from the MOST-HÍD party. In our village, the continuation of the renovation of the village museum would be realized by this project as planned next spring.

WELL-DRILLING

On October 25, 2019 the well-drilling works began. We managed to get to thirty meters deep. However, before we could investigate the quality of the water we have found, unknown people filed a complaint with the county environmental authority, so we are currently forced to suspend the works.

ATTENTION!
THE MOBILE COLLECTION OF ELECTRONIC WASTE WILL BE REALIZED ON
NOVEMBER 25th 2019.
