STONEMASON-BRICKLAYER TRAINING

The men of our village, who are usually participating in activation works, participate in training of stonemason/bricklayer-auxiliary workers from 27 March 2019 until 03 May 2019. The training is carried out by the lecturers of TM Consulting and is fully funded through the REPAS+ project of the office of labor. As a practical part of the training, the public well will be renovated and the works will be completed around the bus stop.

PLANS

In the near future, the roof structure of our municipal office will be renovated and the facade windows will be replaced as well.

ELECTION RESULTS

In our village, 66 citizens exercised their right to vote in the second round of the presidential elections. 65 votes were valid. The newly elected president, at 31.58% attendance, got 39 votes, her counter-candidate 26.

SURVEY

The poll is still ongoing. Thank you for filling out the questionnaire, thanks for all the opinions. The creator of this questionnaire apologizes to those who have complained that the house numbers were already written on the questionnaires. I did not intend to discriminate at all. I wanted to address every household personally to make them feel that every opinion is important to us as a local municipality, in the naive and idealistic hope that the households can at least agree within themselves. The anonymous nature of the questionnaire was even not considered. Based on the questionnaires received so far, the majority of our population had no problem with the lack of anonymity. One can't meet everyone's needs. Next time, perhaps, I shall do it differently.

INVITATION

The members of the cultural committee of the municipality of Rakytník - Rakotyás invite all local residents, little and big, to their event called "Awaiting Easter" on April 7, 2019, at 14:00 on Sunday, at the community center.

By cultivating old traditions, you may learn about the mysteries of egg painting and gingerbread decoration.

We provide everything for gingerbread decoration and everybody brings their own tools for painting the eggs.
